Monday – Friday 9.30 am to 4.00 pm

Saturday, Sunday – 10.00 am to 4.00 pm

Weekends incur a surcharge on tours of an extra \$2.00 pp

TOUR OPTIONS – Price Per Person *note weekend surcharge			
TOUR	INCLUSIONS	Adult	Student
Bus Site Tour 1 hr duration	Using the school's own coach/ bus take in a site tour. The bus stops at the trig point where Students can enjoy solar telescope viewing and the magnificent views of the Warrumbungle National Park. The tour will stop at the AAO telescope so you can access their viewing gallery. The tour concludes at the Exploratory where entry is included in tour cost.	\$17.00	\$12.00
Exploratory Tour SELF GUIDED ONLY	This option is self-guided. You may enter the ANU Exploratory exhibition and the AAO telescope viewing gallery at your own leisure.	\$5.50	\$3.50
Walking Site Tour 2 hr duration	Enjoy the views, fresh air and a walk. A tour guide will walk and talk to you about the telescopes of Siding Spring Observatory. These tours require a minimum of 15 people. Please bring comfortable walking shoes and bottled water. There are a few steep hills so moderate fitness is required.	\$19.00	\$14.00
ASTRONOMY TALKS - OPTIONAL		\$10.00	\$5.00
<p><i>Talks last approximately 20-30 mins with time for a question and answer session at the end. The talk can be tailored to suit your needs depending on age group, subject knowledge and level of interest. If you choose an Astronomy Talk, an ANU staff member will contact you to discuss your student's requirements.</i></p> <hr/> <p style="text-align: center;">THE TELESCOPES OF SIDING SPRING</p> <p>An inside look at the various telescopes, research and organisations that call Siding Spring home.</p> <p style="text-align: center;">OUR SOLAR SYSTEM</p> <p>Our solar neighbourhood is an exciting place. The solar system is full of planets, moons, asteroids, comets, minor planets, and many other exciting objects. Learn about Io, the explosive moon that orbits the planet Jupiter, or explore the gigantic canyons and deserts on Mars.</p> <p style="text-align: center;">SUNLIGHT AND SPACE TRAVEL</p> <p>Looks at Year 4-6 syllabus and explains day and night; the apparent motion of the Sun across the sky each day and that the effect is caused because the Earth spins on its axis; looks at the Earth orbiting of the Sun and how seasons are caused because the Earth is tipped on its axis; explain the phases of the Moon and eclipses</p> <p style="text-align: center;">THE PHYSICS BEHIND ASTRONOMICAL INSTRUMENTATION</p> <p style="text-align: center;">LIFE AS AN ASTRONOMER</p>
