### OPENING HOURS FOR ORGANISED TOURS

Monday – Friday 9.30 am to 4.00 pm

Saturday, Sunday – 10.00 am to 4.00 pm

*Weekends incur a surcharge on tours of an extra \$2.00 pp*

TOUR OPTIONS – Price Per Person			
TOUR	INCLUSIONS	Adult	Student/Senior
<b>Bus Site Tour</b>	Take a leisurely tour of the site by bus. The bus stops at the trig point where passengers can disembark to take photos and enjoy the magnificent views of the Warrumbungle National Park. You'll also stop at the AAO telescope so you can access their viewing gallery. The tour concludes at the exploratory where entry is included in tour cost.	\$17.00	\$10.00
<b>Exploratory Tour</b> <b>SELF GUIDED ONLY</b>	This option is self-guided. You may enter the ANU Exploratory exhibition and the AAO telescope viewing gallery at your own leisure.	Free	Free
<b>Walking Site Tour</b>	Enjoy the views, fresh air and a walk. A tour guide will walk and talk to you about the telescopes of Siding Spring Observatory. These tours require a minimum of 15 people. Please bring comfortable walking shoes and bottled water. There are a few steep hills so moderate fitness is required.	\$17.00	\$10.00
<b>ASTRONOMY TALKS - OPTIONAL</b>		\$5.00 pp	\$5.00 pp
<p><i>Talks last approximately 20-30 mins with time for a question and answer session at the end. The talk can be tailored to suit your needs depending on age group, subject knowledge and level of interest. Talks can also include the history of astronomy, planets around other stars, and space missions. If you choose an Astronomy Talk, an ANU staff member will contact you to discuss your requirements.</i></p> <hr/> <p style="text-align: center;"><b>THE TELESCOPES OF SIDING SPRING</b></p> <p>An inside look at the various telescopes, research and organisations that call Siding Spring home.</p> <p style="text-align: center;"><b>OUR SOLAR SYSTEM</b></p> <p>Our solar neighbourhood is an exciting place. The solar system is full of planets, moons, asteroids, comets, minor planets, and many other exciting objects. Learn about Io, the explosive moon that orbits the planet Jupiter, or explore the gigantic canyons and deserts on Mars.</p> <p style="text-align: center;"><b>TRAVELLING THE SOLAR SYSTEM</b></p> <p>A look at the Solar System and the space missions which are happening right now.</p> <p style="text-align: center;"><b>SUNLIGHT AND SPACE TRAVEL</b></p> <p>Looks at Yr 4-6 syllabus and explains day and night; the apparent motion of the Sun across the sky each day and that the effect is caused because the Earth spins on its axis; looks at the Earth orbiting of the Sun and how seasons are caused because the Earth is tipped on its axis; explain the phases of the Moon and eclipses</p> <p style="text-align: center;"><b>EARLY/LATER HIGH SCHOOL CAREERS TALK</b></p> <p style="text-align: center;"><b>LIFE AS AN ASTRONOMER</b></p>
